## Note:

Type of mold & Core in CO<sub>2</sub>, Shell, Nobake & Green Sand  
In House Pattern & Machining Facility with CNC & VMC Finish  
Machining upto 1000mm dia

## FOUNDRY UNIT DIVISION

- Inductotherm Induction Furnace 500kg & 300kg IGBT
- Cupola of 22" diameter
- Oil fired treatment Furnace 1.0 MT
- Shot Blasting Machine double door type, Table Size 4"
- Sand mullers of 300kg capacity
- Sand seiver
- Diesel Generator
- Compressor
- Pneumatic Moulding Machine
- Pneumatic Grinding and fettling
- Table Grinder
- M.S Moulding Boxes

## MACHINE SHOP

- Jyoti make CNC of 500 mm dia
- Jyoti make vertical machining centre
- Conventional Lathes
- Drilling Machines

## TESTING AND INSPECTION FACILITIES:

- Spectromax Spectrometer for chemical analysis of every heat. Detailed records of each heat with full traceability is maintained
- Tensile, elongation and Impact Testing
- Microstructure testing machine with photo-grabbing capability

## MEASURING EQUIPMENTS

- Hardness Testing Machine
- Teclock Verniers
- Inside Micro meters
- Height Gauge
- Digital Verniers
- Micro meters
- Bore Gauges
- Height Gauges
